

S&L's unique water disinfection system combines UV LIGHT and ULTRASOUND system in a single unit

OPERATIONAL BENEFITS

- Clean sleeves and internal walls to ensure maintenance of optimum UV intensity
- Very low maintenance
- System servicing and parts replacement is easy and straightforward – no special tools required

APPLICATION BENEFITS

- Able to treat waters of low quality:
 - UVT down to 60%
 - Suspended solids up to 20 mg/l
- Minimises shielding of microorganisms in clusters from UV
- Flow rates from 0.5m³/h to 10,000m³/h

With ultrasound

Without ultrasound
